PROFILE

Aspiring Frontend Developer eager to tackle real-world projects, absorb insights, and excel in the digital realm. Specializing in crafting engaging user experiences, conducting rigorous testing, and effective troubleshooting. Proficient in various stages of web and app development, with expertise in technologies like Flutter, HTML, C++, Kotlin, JavaScript, and React. Dedicated to delivering impactful solutions independently or as part of a team, while constantly enhancing skills.

WORK EXPERIENCE & PROJECTS

MOMBASA MAIZE MILLERS LTD

8/2022 - 12/2022

Web Developer

- Designed and developed a comprehensive MMM website utilizing HTML, CSS, and JavaScript.
- Spearheaded the development of a React-based web application from conception to deployment.
- Utilized advanced animation techniques to craft a compelling and immersive website experience.
- Integrated the RESTful EmailJS API to enable seamless email functionality within web applications.
- Seamlessly integrated jQuery and Bootstrap frameworks to expedite and enhance website development processes.

MOBILE APP DEVELOPER

1/2023 - 8/2023

- Designed and developed a Sociommerce application, merging social networking with e-commerce functionalities to facilitate seamless product buying and selling experiences.
- Utilized user feedback to design a mobile app that improved user interface and increased user engagement
- Integrated reels functionality into the application, allowing users to create and share short, engaging videos showcasing products for sale or purchase.

SYSTEM DEVELOPER

9/2023 - 12/2023

- Designed and developed a simple ecommerce system incorporating PHP, HTML, Bootstrap, CSS, JavaScript, MySQL, jQuery, and AJAX, featuring an intuitive admin dashboard and user-friendly frontend interface.
